Notable Cross-Country Motorcycle Records

-practically all of them-have been made on Indians with the CRADLE SPRING FRAME.

For it's only on the Indian that you find this remarkable comfort mechanism - the device that, on rough roads, gives you the sensation of sail-boating on smooth waters.

The difference between Cradle Spring Frame riding and that of the ordinary shock absorbing devices is the difference between walking on iron heel plates and rubber heels-between riding in a farm tractor and a high-grade motor car. The Cradle Spring Frame has more than comfort and ease in

its favor. It keeps shocks from jolting motor mechanism. It absorbs the jars and bruises which the tires ordinarily suffer. Low upkeep cost results-greater mileage, less general tinkering. Come in and test its velvety "give". Find

out why you can travel fastest on roughest roads with the Cradle Spring Frame.
